16. Strength and Weaknesses of the University

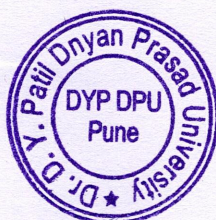

16.1	Strengths of the University	Visionary Leadership and Governance The University benefits from strong and progressive leadership under its Hon'ble Chancellor and Pro-Chancellor, whose foresight and academic vision drive institutional excellence, innovation, and global engagement. Robust Academic Framework A well-structured academic governance system comprising the Academic Council, Board of Studies, and IQAC ensures quality assurance, curriculum relevance, and continuous academic improvement through outcome-based education (OBE) and CBCS models. Multidisciplinary Academic Ecosystem The University houses diverse Schools i.e. including Technology, Management, Pharmacy, Hospitality, Liberal Arts, and Business Strategy
------	-----------------------------	--

		fostering interdisciplinary learning and cross-domain collaboration. Industry-Aligned Curriculum and Pedagogy Curricula are regularly reviewed with input from industry experts to ensure employability and skill relevance. Students are engaged in experiential learning through internships, projects, fieldwork, case studies, and live assignments. Strong Research and Innovation Culture DYPDPU promotes research through its dedicated Research and Innovation Cell, funded projects, collaborations with industries and government bodies, and active encouragement for faculty and student publications and patents. Global Collaborations and Partnerships The University has established academic linkages with international institutions for faculty exchange, student mobility, joint research, and pathway programs, enhancing global exposure and learning outcomes. Modern Infrastructure and Digital Ecosystem A technology-enabled campus with state-of-the-art laboratories, smart classrooms, ERP-integrated examination systems, digital libraries, and research centers supports effective teaching, learning, and administration. Quality Assurance Mechanisms Regular Internal Quality Assurance Cell (IQAC) monitoring, Academic and Administrative Audits (AAA), and structured feedback systems

		ensure continuous improvement across academic and operational dimensions. Strong Placement and Career Development Support The University's Placement and Corporate Relations Cell maintain close ties with leading industries, achieving outstanding placement records, even in challenging market conditions. Students are trained in employability, entrepreneurship, and leadership skills. Holistic Student Development Beyond academics, DYDPDU emphasizes personal growth, ethics, and social responsibility through cultural activities, community outreach, sports, and value-based education initiatives. Commitment to Social and Environmental Responsibility The University integrates sustainability and community engagement into its programs, aligning with national and global development goals such as <i>Swachh Bharat</i>, <i>Digital India</i>, and <i>UN SDGs</i>. Dynamic Faculty and Academic Environment A team of highly qualified, experienced, and research-oriented faculty members continuously mentor students, engage in curriculum design, and contribute to academic innovation and institutional development.
16.2	Weaknesses of the University	While research activities are increasing, the University still seeks to secure greater national and international research funding and industry-

		sponsored projects to strengthen its research base. • Although several international tie-ups are in progress, the University aims to expand global academic and research partnerships for greater student and faculty mobility and joint program development. • Being a relatively young university, the alumni network is still in its developing stage. Structured alumni engagement initiatives and a digital alumni portal are being planned to strengthen connections and mentoring opportunities. • While industry inputs exist in curriculum design, there is scope to enhance real-time industry collaboration through live projects, co-teaching, consultancy, and industry-led research initiatives. • Although faculty are research-active, student involvement in research, innovation, and publication activities needs further encouragement through structured mentoring and research clubs. • Faculty participation in global teaching, training, and collaborative research programs is limited and can be expanded through exchange programs, international conferences, and funded mobility schemes. • As new programs in Artificial Intelligence, Data Science, and Sustainability are being introduced, further specialized laboratories and innovation centers are planned to support cutting-edge learning and research.
--	--	---

		• Being a newly established university, there is a need to strengthen institutional branding, outreach, and communication at both national and international levels to attract top talent and collaborations. • Though interdisciplinary teaching exists, there is a need to foster joint research projects and publications that bridge disciplines such as management, technology, and liberal arts. • While the University has implemented ERP and digital tools, full integration across all academic and administrative functions is still underway to achieve seamless data-driven decision-making.
